Improving Access to Clean and Safe Water in Kabende village Karambi Sub county Kabarole

**Project Partner:** AGUA- ONG, SPAIN  
**Project Area:** Kabende village, Karambi sub county, Burahya county, Kabarole district Uganda  
**Project Duration:** June, 2018– July, 2018

**Aim:**
The project aims to provide better access to safe drinking water, better sanitation and hygiene practices at the targeted community

**Project Description:**
Rehabilitation of a protected shallow well for Kabende village located 15 km south of Fort Portal town in Burahya County, Kabarole district Uganda. This village had no well. The shallow well they had has been not in function for over 8 yrs. The community has been depending on open water wells and flowing streams which are prone to contamination. In the past one year two children the area have lost their lives due to drowning as they laboured to draw water.

A young girl risks to collects water in an open well.
Residents draw water from the dirty water source.

**Project Output**

- Mass awareness on health, hygiene and water & sanitation issues
- Established sustainable plan of PAY LESS FOR CLEAN AND SAFE WATER
- Organized campaign on household water treatment and safe storage system.
- Construction of long lasting protected Shallow well supplying clean and safe water.
